General Instructions to Candidates :

- There is a 'Cool off time' of 15 minutes in addition to the writing time.
- Use the 'Cool off time' to get familiar with questions and to plan your answers.
- Read the instructions carefully.
- Read the questions carefully before answering.
- Calculations, figures and graphs should be shown in the answer sheet itself.
- Give equations wherever necessary.
- Electronic devices except nonprogrammable calculators are not allowed in the Examination Hall.

(Questions 1 – 8) : Answer the questions as directed.**(Questions 1 – 4) :** Read the passage given below and answer the questions that follow.

Science and technology play key roles in monitoring hazards and vulnerabilities, developing an understanding of their continually changing patterns and in developing tools and methodologies for disaster risk reduction. The dissemination and application of new strategies and measures to protect lives, livelihoods and property within societies experiencing dynamic change are key areas of work for the scientific and technical communities. Scientific knowledge, technical expertise and

experiences to reduce risk have to be shared and made widely available as an integral part of multi-disciplinary technical co-operation. Efficient disaster reduction needs a mutually reinforcing interaction between scientists, decision-makers and informed citizens.

HSSLive.IN

Mr. Gupta helps them to anchor on to their hopes. Write an essay on the treatment of hope and aspirations in the story, 'The Price of Flowers'.

23. Read the poem given below and write a critical appreciation of it.

SLEEP

In the night of weariness
let me give myself up to sleep without struggle,
resting my trust upon thee.

Let me not force my flagging spirit into a poor preparation
for thy worship

It is thou who drawest the veil of night upon the tired eyes
of the day
to renew its sight in a fresher gladness of awakening.

(Rabindranath Tagore)

Glossary :

weariness – extreme tiredness

flagging – losing strength

thou – you
